Maestro

Arlon developed a great deal during the Gallo-Roman era and numerous remains of this era can be seen in the Archaeological Museum!

Famous for the quality and quantity of its exhibited sculptures, the museum lets you have a glance at the life of our ancestors in the 3rd century. Various objects from every day life (china, pottery, glasses, necklaces) complete your visit.

Next to the permanent gallo-roman collection, the museum regularly organises temporary exhibitions around archaeology.
