THE SYMBOL OF BELGIUM AND BRUSSELS

The Atomium was designed and built for the Brussels World's Fair in 1958 and holds the middle ground between sculpture and architecture. Representing an iron crystal (with 9 atoms) enlarged 165 billion times, the monument, with its unique silhouette, has over time become the symbol of Brussels and Belgium.

The Atomium not only offers the most beautiful view of Brussels, but also surprises its visitors with permanent and temporary exhibitions and installations that make it, year after year, one of the main attractions in the capital of Europe.

THE MAGIC OF ARCHITECTURE, THE JOYS OF CULTURE

Permanently available:
- a surrealist walk through tubes and spheres
- the most beautiful panorama (360°) of Brussels and its surroundings (92m)
- a panoramic restaurant with a 100% Belgian menu (95m)
- a permanent exhibition on the history of the building
- a shop brimming with original gifts

Temporary events (2023):
- RESTART. A digital experience, immersing you in sound & light.
- I have seen the future - Ève Cadieux. A photographic installation that exhibits the remains of the World’s Fairs throughout history.
- the Atomium ticket includes entrance to Design Museum Brussels (150m away)
